PROFESSIONAL SUMMARY

Flutter Developer with hands-on experience building cross-platform mobile applications using Flutter and Dart, with a solid background in Native Android development (Java/Kotlin). Proficient in Clean Architecture, BLoC/Cubit state management, RESTful API integration via Dio, and Firebase services. Experienced with dependency injection (get_it), local storage (Hive, Shared Preferences), and navigation (go_router). Passionate about delivering high-performance, scalable, and user-centric mobile solutions.

PROJECTS

E-Commerce Mobile Application

Flutter, Dart | Cubit, Dio, get_it, Hive, go_router, l10n, Flutter Secure Storage, Clean Architecture

- Delivered a full-featured shopping app covering 5+ core modules: product catalog, cart, checkout, order tracking, and user auth.
- Eliminated 100% of recursive 401 auth errors by implementing a dedicated Dio refresh-token interceptor with an isolated Dio instance.
- Structured codebase across 3 clean layers (data, domain, presentation), improving feature scalability and maintainability.

Todo Task Manager Application

Flutter, Dart | Cubit, Dio, get_it, Hive, go_router, l10n, Flutter Secure Storage, Clean Architecture

- Built a task manager supporting 2 languages (AR/EN) with offline-first Hive storage, achieving 0 data loss on network failure.

Wallet – Personal Finance Application

Flutter, Dart | Cubit, get_it, Hive, go_router, l10n, Flutter Secure Storage, Clean Architecture

- Secured 100% of local financial data with AES encryption; implemented modular go_router navigation across 6+ screens.

Movies Discovery Application

Flutter, Dart | Cubit, Dio, get_it, Firebase, go_router, l10n, Clean Architecture

- Integrated 2 Firebase services (Auth + Firestore) with a RESTful API, supporting 1,000+ paginated movie records.

TECHNICAL SKILLS

Programming Languages: Dart, Kotlin, Java

Mobile Frameworks: Flutter, Android SDK, Jetpack, Jetpack Compose

State Management: BLoC, Cubit, Provider, MVVM, MVI

Architecture Patterns: Clean Architecture, MVVM, MVI, SOLID Principles, OOP, Design Patterns

Networking & APIs: RESTful APIs, Dio, Retrofit

Backend & Database: Firebase (Auth, Firestore, Realtime DB, Storage), Hive, Room, Shared Preferences

Tools & DevOps: Git, GitHub, Android Studio, VS Code, Dependency Injection (get_it, Dagger Hilt)

Other: go_router, Flutter Secure Storage, l10n / Internationalization, Unit Testing

Soft Skills: Problem-Solving, Attention to Detail, Self-Learning, Adaptability, Teamwork, Communication, Time Management, Analytical Thinking

EDUCATION

Bachelor of Science – Computer Science and Engineering

Zagazig University, Egypt | Expected Graduation: 2027 | Grade: Very Good

COURSES & CERTIFICATIONS

- Native Android Development Diploma – Route Academy
- Mobile App Development Diploma (Flutter) – Route Academy
- Mobile App Development Diploma – NTI (National Telecommunications Institute)

LANGUAGES

Arabic: Native | **English:** Professional Working Proficiency
